Profile

Chelsey Chelsey was incepted in the year **2006**. We provide designer and consultancy at economical prices. Today, we have been able to carve a special niche for ourselves in today's cut-throat business scenario by offering a wide array of esteemed Designing and Consultancy Services at economical prices to our clients. We make sure that every job work is being rendered after a detailed study and analysis of the assigned project.

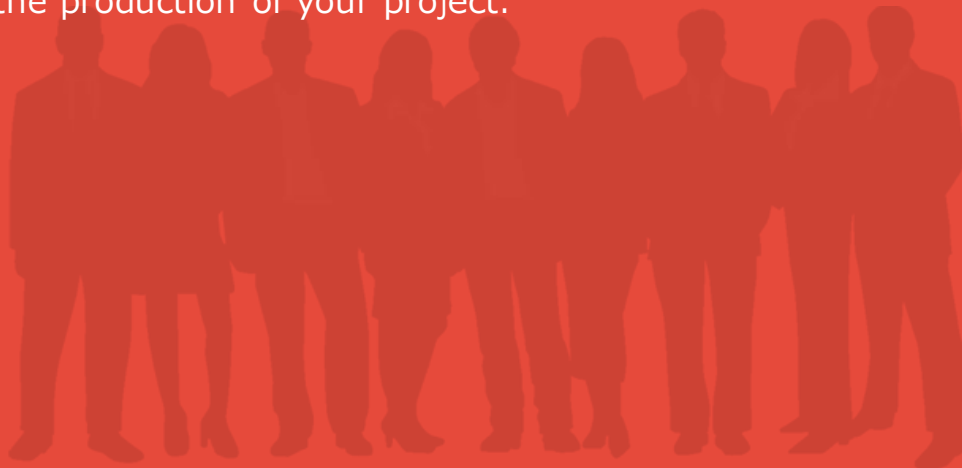

Our experts critically analyze every minute detail provided by the client and implement them in our process. We take great pride in announcing that we have successfully executed a number of projects that have involved complex drawings and procedures. We are leading manufacturer, trader, wholesaler and supplier of the field of digital textile printing and digital printing services.

JV digital Printing was founded by Tajendra Chadha, (AOTS Japan...Scholarship Holder) who has over 25 years of experience in the field of textile design, production and Exports to USA, Europe, Japan and many other countries.

The company is a forerunner in manufacturing Ladies Apparels, Made ups, Accessories and Digital printing.

As textile designers themselves, they are keenly aware of the pressures imposed by fast moving fashion seasons and production deadlines. Their use of highly specialised printing technology maximises the potential of your designs. They can now achieve what was, until recently, considered impossible in the realm of printed fabric. JV Digital Printing remains focussed on the needs of its clients. It strives to achieve the shortest lead times from receipt of artwork to printed fabric.

The company is big on experience, but small enough to care. JV Digital Printing throughout the production of your project.

T SHIRT & CUSTOM PRINTING

Our different print techniques assure you the best service with **no minimums**, no setup fee and a fast turnaround. Our **screen printing** and direct-to-garment digital printing will give you the best results, we are here to offer you incredible pricing without compromising quality or service.
